#### If you are interested in projects NGIN: Telecom Next Generation Intelligent Networks

##### Creating Total Communications Providers

Aimed at both today's and tomorrow's Telecom providers, Atos Origin's Next Generation Intelligent Network (NGIN) services deliver truly convergent services for both enterprise and consumer customers. Our NGIN services enable a business to become a total communications provider, providing truly convergent services seamlessly integrating mobile, fixed, IP, and even PC soft phones.

##### Enjoy the Proven Benefits of a Convergent Approach

Our Next Generation Intelligent Network (NGIN) enables traditional services to be supported in a new networking infrastructure (IMS/Packet Switched) for diverse terminal types while also facilitating the introduction of new services.

Atos Origin Next Generation Intelligent Networks Expertise Center serves the telecommunications market since 1998. To date, Atos Origin products are deployed and live in a dozen operators and on more than 50 network elements around Europe.
